EIT Health

What is in it for you?

Collaboration opportunities for academic partners

Scientists in R&D

Turn healthcare inventions into new products and services. Get funding for innovation projects with industry partners.

Innovation Managers

Get access to the next leading-edge technologies and innovations and get involved in new projects to tackle societal challenges.

Technology Transfer Officers

Achieve tangible results with market potential by joining innovative healthcare collaboration projects.

Communication Managers

Enhance the visibility of your organisation by joining a multi-disciplinary pan-European partnership platform.

EIT Health - a strong partnership across Europe

EIT Health is one of the largest healthcare initiatives worldwide. Its goal is to improve the sustainability of healthcare systems, promote healthy living and active ageing and enhance the overall wellbeing of people across Europe.

With our 136 partners across Europe we promote entrepreneurship and innovation in healthcare and transform health education in Europe.
